What people are saying:

"Sherri's presentation, using teacups, illustrates how each of us is unique and loved by God. Participants get a sense of how special they are, regardless of their age, condition, or history, and that God will use them even if they are not "perfect". Her talk is uplifting, healing, and beneficial both for those who already know the Lord and those who are yet to meet Him. I would strongly recommend her presentation to anyone who needs to be encouraged and given hope for their future."

Dr. Linda Foltz, Licensed Psychologist

"There are so many hurting women who desperately need to be reminded of their worth in God's eyes. Sherri delivers this encouraging message in such a wonderfully unique and creative way, and it goes straight to the heart of women. Sherri's tea parties are more than just fun, they are healing. I will never look at a teacup the same again!"

Patty Ivers, Spivey Community Church
